Your Monthly Gas Use At a Glance

Degree Day: A measure of coldness based on the extent to which the daily mean temperature falls below 65°F. For example, on a day when the average temperature is 35°F, there would be 30 degree days experienced.

Units:

- CCF = Hundred Cubic Feet
- MCF = Thousand Cubic Feet

Charges

Due Date/Late Charge: Please pay your bill by the due date to avoid a late charge.

Franchise Fee: This fee, if applicable, is charged by your city or county for the use of alleys, streets and rights-of-ways for gas lines to provide your service. The fee is based on the amount of each customer's bill.

Monthly Customer Charge: This is a fixed cost regardless of your usage and covers metering, billing and account maintenance.

Multiplier: Converts the metered unit of measure to the standard billing unit of measure, where applicable.

Prorated Bill: If applicable, we will adjust, or prorate, the charges on bills with more or less than the standard days of service.

Purchased Gas Adjustment (PGA): This reflects the market increases and decreases in the price we pay for gas delivered to our customers, there is no mark-up. This rate can vary on a monthly basis as the cost of gas changes.

Rate: This code represents the rate used to calculate your bill.

Read Type (Actual): If we are unable to read your meter we will estimate your consumption for the month.

Taxes: This section shows state and local taxes, including city franchise tax, if applicable.

Weather Normalization Adjustment (WNA): A charge (during warmer than normal weather) or credit (during colder than normal weather) applied to your bill that is calculated based on usage and average temperatures during a billing period. This generally happens between October and April.
