Need help paying utility bills? See if you qualify for assistance.

Winter temperatures can mean increased energy usage to heat your home. If you need help with your utility bills, financial assistance may be available to you.

Energy Assistance Programs help eligible customers in all of our service areas pay their home heating costs with the help of various local, state, and federal

agencies. These programs are designed to supplement payments made by customers who would otherwise be unable to afford the full cost of heating their home. To inquire about eligibility, contact your local Energy Assistance Agency or call 211.

Safety

Clear your meter during fall cleanups

Fall cleanup calls for lots of raking and hedging. While preparing for cooler weather, don't forget to clear your natural gas meter of any shrubbery. If a hand shovel or more is required to remove vegetation, call 811 prior to digging.

Don't get in hot water

Did you know that every day in America, eight people suffer serious burns from hot water? These accidents can often be prevented. If your water is above 125 degrees at the tap, it's too hot. Consider lowering your water heater thermostat setting to 120 degrees. You'll not only prevent injuries from scalding water, you may also save money.

Reporting a gas leak

Most people are familiar with the distinctive odor added to natural gas. It's often compared to sulfur or rotten eggs. If you smell gas in your home or suspect a gas leak, **call Liberty's emergency number at 1-855-216-6306 or 911 from a safe distance.**

Do not re-enter the property for any reason until Liberty personnel tell you it is safe to do so.
